ADEKA ULTRA SEAL A-30

**** MEMO ****

Adeka Ultra Seal A-30 has replaced Adeka Ultra Seal A-50 in the US and Canadian market.

A-30 is an improved version of A-50. Adeka Ultra Seal A-30 is a two component chemical cure product. A-30 has improved durability, better resistance to alkaline conditions and it will cure in cold weather.

The information in this booklet is based on A-50. **All references to the performance and function of A-50 is transferable to A-30.**

The exceptions are:

Expansion limits -	A-50 was 5 X's by Volume - A-30 is 3 X's by volume
Curing Time -	A-30 is a chemically cured material. A-50 was temperature and humidity dependent
Cold weather use -	A-30 cures in cold weather
Components -	A-30 is a two component product

Please call your local representative or the above 800 number if you have any questions.
